

**Onesky Engineering, Inc.
Remediation Trailer Listing**

- Soil Vapor Extraction (SVE) Trailers
Several to choose from
 - Fully enclosed
 - Low vacuum systems
 - 3 to 5hp regenerative blower
 - Vacuum to 70 in-H₂O
 - High vacuum systems
 - Positive Displacement Blower 5-hp to 25-hp
 - Vacuum to 29 in-Hg
 - 30-gallon moisture separator
 - Vapor phase carbon adsorbers
 - Control panel

- Dual Phase Extraction (DPE) Trailers
Several to choose from
 - Fully enclosed
 - 7.5-hp Liquid Ring Pumps (LRP)
 - Vacuum to 29 in-Hg
 - 30-gallon moisture separator
 - Transfer pump
 - Vapor and liquid phase carbon adsorbers
 - Control panel

- Groundwater Extraction and Treatment Trailers Fully enclosed
Ideal for pumping tests and dewatering 3-hp to 5-hp Blower for
 - Shallow Tray air stripper
 - Transfer pumps
 - Liquid phase carbon adsorbers
 - Control panel

- Thermal/Catalytic Oxidizers
 - Trailer or skid mounted
 - ThermTech Vac 10 and Vac 25
 - Nominal flow from 100 to 250 CFM

Onesky Engineering, Inc. can complete your trailer rental with all the additional instrumentation and equipment you need for a successful pilot test, pump test, or interim remedial action including power supply and skilled OSHA-trained technicians.
